The
MILAN
Collection

Proudly introducing our latest collection for Superfresco Colours, The Milan Collection. The collection was inspired by a texture that's taken the market by storm. Building on the success we developed a collection of lead co-ordinates to perfectly sit with our best selling textures.

When developing any product for the colours brand, value is always at the forefront of our process. Ensuring the customer receives a high quality roll of wallpaper, that oozes luxury whilst still a problem solving product for unruly walls.
